Applied Metacognition by Timothy J. Perfect

Teaching metacognitive strategies can improve learners' performance at school. This makes it a good, evidence-based target for intervention. A simplified definition of metacognition is "thinking about thinking", but metacognition also encompasses the regulation of these thoughts – the ability to change them. It is a step further than simple awareness of thought processes, incorporating the ability to alter thoughts and behaviours.

Thinking about thinking - Teaching metacognitive strategies

The concept of metacognition has also been applied to collective
