nerve, easing the symptoms of CTS. Steroid injections are not always a cure. CTS can come back after a few months and you may need another injection.

~~Carpal tunnel syndrome – NHS~~

Carpal tunnel syndrome (CTS) is caused by nerve compression and irritation within the wrist, which leads to pain, numbness, tingling and/or weakness in the wrist and hand. Repetitive strains / sprains, fractures, unusual wrist anatomy, arthritis and other conditions reduce the space within the carpel tunnel and increase the risk of CTS.

Hand Surgery to Repair Carpal Tunnel Syndrome. Before I recommend hand surgery to my patients, I generally suggest a non-surgical treatment protocol involving rest, injections, splinting, and medication. In the event that those strategies prove unsuccessful, hand surgery can be enormously productive in relieving the pain of carpal tunnel syndrome.

~~Conquering Carpal Tunnel Syndrome – Form & Face~~

Carpal tunnel syndrome (CTS) is a medical condition due to compression of the median nerve as it travels through the wrist at the carpal tunnel. The main symptoms are pain, numbness and tingling in the thumb, index finger, middle finger and the thumb side of the ring finger. Symptoms typically start gradually and during the night. Pain may extend up the arm.

~~Carpal tunnel syndrome – Wikipedia~~
