Thus Minspeak simplifies morphology for students & imposes a more comprehensible set of instructions. Core words are abstract in nature, preventing them from being represented in a concrete manner by symbols. In a single-symbol single-word system, it is quite arbitrary whichever symbol is chosen to represent a word like "that".

Semantic compaction,, conceptually described as polysemic iconic encoding, is one of the three ways to represent language in Augmentative and alternative communication. It is a system utilized in AAC devices in which sequences of icons are combined in order to form a word or a phrase. The goal is to increase independent communication in individuals who cannot use speech. Minspeak is the only patented system for Semantic Compaction and is based on multi-meaning icons that code vocabulary in short

Semantic compaction - Wikipedia

To disinfect everything but the display, use a solution of vinegar and water (¼ cup vinegar to 1 cup water). Wipe the case (not the display) using a cloth dampened with this solution. Wash the Keypad frame, Keypad, and TouchGuide separately with the vinegar and water solution. Allow all equipment to air dry.
