Tau Zero is a hard science fiction novel by American writer Poul Anderson. The novel was based upon the short story "To Outlive Eternity" appearing in Galaxy Science Fiction in 1967. It was first published in book form in 1970. The book is a quintessential example of "hard sci-fi", as its plot is dominated by futuristic technology.

Tau Zero - Wikipedia

According to James Blish, Tau Zero is the ultimate hard science fiction novel. For readers with a background in physics and math, there's certainly generous helping of science, for example: "Precisely because there is an absolute limiting speed (at which light travels in vacuo ; likewise neutrinos) there is an interdependence of space, time, matter, and energy.

Tau Zero by Poul Anderson - Goodreads

From practically the very first page, Tau Zero sets scientific realities in dramatic tension with the very real emotional and psychological states of the travelers, exploring the effect of time contraction due to traveling at near-light speed on the human psyche. This tension is a dynamic that Anderson explores with great success over the course of the novel as fifty crewmembers settle in for the long journey together.

This behavior is referred to as a "decaying" exponential function. The time (tau) is referred to as the "time constant" and can be used (as in this case) to indicate how rapidly an exponential function decays. Here: t = time (generally t > 0 in control engineering) V 0 = initial value (see "specific cases" below). Specific cases
