Challenges of Effective Teacher Collaboration. According to the Global State of Digital Learning Survey, more than 30% of teachers, and nearly 50% of administrators report that teacher collaboration is a top priority for them. When we learned that almost 30% of those administrators believe that getting their teachers to collaborate is one of their biggest challenges, we tend to wonder where the disconnect is.

Collaborative teaching can be defined as "two or more people sharing responsibility for educating some or all of the students in a classroom" (Villa, Thousand and Nevin, 2008, p. 5).

They suggest that it "involves the distribution of responsibility among people for planning, instruction and evaluation for a classroom of students (p. 5).

~~Collaborative teaching: Advantages and challenges~~

Teaching children how to collaborate, and creating a variety of learning experiences which enable them to collaborate, is not only an excellent way to develop a dynamic and fluid classroom, but it also builds confidence in children as learners. Creating an effective collaborative classroom is the absolute bedrock of a learning powered class and is the launchpad to other Design Principles, such as reflection and building independence.

~~Book Reviews : Teachers as Collaborative Learners ...~~

Teachers and students are at the heart of education structure, interaction, and even innovation. Teachers are the conveyors of ideas and practices and the source of knowledge of their learners. Libyan teachers are fulfilling this role in a challenging context, because they are teaching students whose education process has been unstable for a long time.

~~The benefits of teacher collaboration~~

The teachers engaged in a variety of learning activities, including crafting learning intentions and success criteria that were in turn shared with their students. They also co-created lessons and volunteered to take turns teaching and observing. During one of their debriefing meetings, a first-year teacher revealed the following to her colleagues: Our common planning and then observations have made me feel more confident in challenging my students.

Supervisors, specifically creating and embracing a new environment and methodology for learning/instruction. Challenges aside, arming the students with resources and skills to remain productive outside the classroom is the keystone of education. Collaborative learning has proven to encourage the improvement and maturation of a variety of skills necessary for future success in the work place.
